

# REGIONAL RAIL REVIVAL

# WALLAN STATION UPGRADE

We're making improvements to Wallan Station as part of the Shepparton Corridor Upgrade.

The upgrade will provide better station facilities for the town's growing population.

There will be improved parking and better access for people, buses and cars at Wallan Station.

### Works will include:

- extending the length of the city-bound platform to fit all train carriages, making it quicker for passengers to get on and off
- adding toilets in the waiting room
- installing two additional bus bays, including shelters
- adding new platform shelters
- upgrading pedestrian access to the car park
- additional bicycle parking
- new passenger information displays.

### NEXT STEPS

We'll consult with local residents and passengers to get their feedback on the upgrade.

A construction contract to deliver the work will be awarded later this year.

The upgrade has a target completion date of 2020.

### WHAT IS THE SHEPPARTON CORRIDOR UPGRADE?

The upgrade to Wallan Station will be delivered as part the Shepparton Corridor Upgrade.

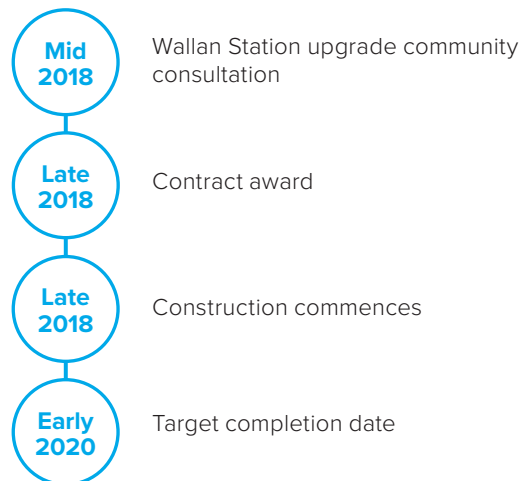

The project will also deliver more frequent services for Shepparton and will allow modern VLocity trains to travel to and from Shepparton for the first time.

### REGIONAL RAIL REVIVAL

The Shepparton Corridor Upgrade is funded by the Victorian Government. Delivery of the project will be overseen by Rail Projects Victoria as part of the Regional Rail Revival program.

Regional Rail Revival will create more than 1,000 jobs across the state.
