WORKS NOTIFICATION

Wallan Station upgrade

24-hour works 12:01am Saturday 27 July – 11:59pm Sunday 28 July
Night works Tuesday 6 August – Thursday 22 August

Wallan Station is being upgraded to cater for the community’s growing population and to improve safety, access and comfort.

Coaches will replace trains on the Seymour and Shepparton lines for V/Line maintenance and our construction at Wallan Station on Saturday 27 and Sunday 28 July.

Night works will be taking place to complete work that can only be performed safely when trains are not running.

WHAT IS HAPPENING?

24-hour works will take place from 12:01am Saturday 27 July to 11:59pm Sunday 28 July.

Night works will take place from 11:00pm to 4:30am Tuesday 6 to Thursday 22 August to complete the platform shelters and extension at Wallan Station.

The following work will take place in the rail corridor and the station precinct:

- **Installation** of concrete piles, steel reinforcing and new stone edging for the platform extension
- **Relocation** of underground services.

WHAT TO BE AWARE OF

During the works, there will be heavy machinery and additional lighting in the rail corridor.

Access to private properties and businesses will be maintained at all times. No impacts to existing services to your property are expected from our works.

Please take care around work areas and follow all signs.

TRAFFIC IMPACTS

There will be temporary changes to traffic conditions on Station Street and in the station precinct to allow for delivery of construction materials.

Traffic management such as speed restrictions and traffic controllers may be in place while these works are underway for the safety of workers and motorists.

STATION ACCESS DURING 24-HOUR WORKS

During the 24-hour works, the waiting room and myki machine on the Seymour-bound platform will be accessible for passengers travelling on replacement coaches.

Pedestrian, vehicle and cyclist access to the station precinct and car park will remain in place.

STATION ACCESS AT OTHER TIMES

Changes have been made to pedestrian access at Wallan Station to complete the new bus interchange and car park safely.

Access to the station will remain in place at all times. The entry via the waiting room door is temporarily closed until late-August.

The access point at the Northern end of the platform will be closed until early-September. The entry gate to the Seymour-bound platform is open as normal.

Way-finding signage will be in place.

Car parking will be available within the station precinct.
MINIMISING IMPACTS

There will be some noise from the works. Where possible, we will minimise disruption to residents and businesses in the following ways:

- Scheduling noisy works during normal working hours where possible
- Using noise-reduced equipment.

We will notify residents and businesses if there are any significant changes to the works.

All planned works are dependent on suitable weather and ground conditions.

PLAN YOUR JOURNEY

For more information about V/Line coach replacement services while trains are not running on Saturday 27 and Sunday 28 July, contact the Public Transport Victoria call centre: 1800 800 007 (6am to midnight daily – all night Friday and Saturday) or visit vline.com.au

REGIONAL RAIL REVIVAL

Wallan Station is being upgraded as part of the $1.75 billion Regional Rail Revival. The program is a joint initiative of the Australian and Victorian governments and will upgrade stations, signalling and track across Victoria. The project is being delivered by Rail Projects Victoria on behalf of the Victorian Government.

Thank you for your patience while we upgrade Wallan Station.
