

BALLAN STATION UPGRADE

We are upgrading Ballan Station as part of the Ballarat Line Upgrade.

The upgraded station will feature:

- a new platform
- a new accessible pedestrian overpass linking the platforms
- improved layout of existing car park and bus bays
- car parking on the southern side of the station
- new bike storage facilities

- drop-off zones
- taxi bays

Construction will commence later this year and will be complete in late 2019.

WHAT YOU TOLD US

The local community and stakeholders had their say on the Ballarat Line Upgrade last year and the information provided has shaped the design for the upgrade of Ballan Station.

	WHAT IS IMPORTANT TO YOU	HOW THE STATION DESIGN CONSIDERS YOUR FEEDBACK
Access and connections	Easy and safe access for all people	The new ramps, lifts and stairs will provide easy access to the platforms. The new forecourt on the north side of the station will be connected to the existing station via a wide, covered pedestrian footbridge. The station has been designed to be accessible for everyone, including the elderly, people travelling with children and those with wheelchairs and mobility aids.
Heritage and integration	New infrastructure such as overpasses and shelters should be integrated with the existing look and feel of the station	There will be no significant changes to the existing station building and other key features of the station such as the Walsh Street pine trees, which will be retained. The footbridge has been designed to fit in with existing heritage, while maximising views to the water tank, pine trees and district views beyond.
Safety and security	Well lit areas, more CCTV cameras and emergency assistance intercoms	CCTV cameras, lighting and emergency assistance intercoms have been included in the new station design. The overpass will be transparent and allows people to maintain visibility of the station and platforms while they cross, which increases safety at the station.

HAVE YOUR SAY

We invite your feedback to help finalise the design for the station, including how we plan to incorporate the existing building's heritage character, and landscaping for the new forecourt areas.

INFORMATION SESSION

Meet our team and view images of the planned station upgrades at our community information sessions:

Ballan Mechanics Institute Hall, 143 Inglis Street, Ballan

- Thursday 26 July 2018. Time: 5pm - 8pm
- Saturday 4 August 2018. Time: 10am - 1pm

CONTACT US
