WORKS NOTIFICATION

Donnybrook Station upgrade

Night works Thursday 20 – Thursday 28 June
24-hour works 12:01am Saturday 29 June – 11:59pm Sunday 30 June

Donnybrook Station is being upgraded to cater for the community’s growing population and to improve safety, access and comfort.

Coaches will replace trains on the Seymour and Shepparton Line for V/Line maintenance work and construction at Donnybrook Station on Saturday 29 and Sunday 30 June.

WHAT IS HAPPENING?

Night works will take place from 11pm to 5:30am Thursday 20 to Thursday 28 June.

Works are scheduled from 12:01am, on Saturday 29 June to 11:59pm on Sunday 30 June 2019 to lay the foundation for the platform extension at Donnybrook Station.

The following work will take place in the rail corridor and in the station precinct:

- Construction activities including excavation and backfilling
- Installation of concrete and steelwork for the platform extension.

WHAT TO BE AWARE OF

During the night works from Thursday 20 to Thursday 28 June, there will be machinery and additional lighting in the rail corridor.

Heavy machinery, trucks and workers will be operating on Springs Road, in the station area and rail corridor during the 24-hour works on Saturday 29 and Sunday 30 June.

There will be some noise and dust from the works. Where necessary, water carts will be used for dust suppression.

Access to private properties and businesses will be maintained at all times.

No impacts to existing services to your property are expected from our works.

Please take care around work areas and follow all signs.

TRAFFIC IMPACTS

There will be temporary changes to traffic conditions on Springs Road and in the station precinct to allow for delivery of construction materials.

Traffic management such as speed restrictions and traffic controllers may be in place while these works are underway for the safety of workers and motorists.

STATION ACCESS

During the 24-hour works, the myki machine on the city-bound platform will be accessible for passengers travelling on replacement coaches.

Pedestrian, vehicle and cyclist access to the station precinct and car park will also remain in place.
MINIMISING IMPACTS

Where possible we will minimise disruption to residents and businesses in the following ways:

- Scheduling noisy works during normal working hours where possible
- Using noise-reduced equipment.

We will notify residents and businesses if there are any significant changes to the works.

All planned works are dependent on suitable weather and ground conditions.

PLAN YOUR JOURNEY

For more information about V/Line coach replacement services while trains are not running on Saturday 29 and Sunday 30 June, contact the Public Transport Victoria call centre: 1800 800 007 (6am to midnight daily – all night Friday and Saturday) or visit vline.com.au

REGIONAL RAIL REVIVAL

Donnybrook Station is being upgraded as part of the $1.75 billion Regional Rail Revival. The program is a joint initiative of the Australian and Victorian governments and will upgrade stations, signalling and track across Victoria. The project is being delivered by Rail Projects Victoria on behalf of the Victorian Government.

Thank you for your patience while we upgrade Donnybrook Station.
